

# WINCUT

► Cuts up to 305 cm, 20 mm thick and 3 mm thick for glass ◀

WINCUT

PNEUMATIC CUTTER

PNEUMATIC VERTICAL CUTTER

- 72 85 02 WINCUT PNEUMATIC CUTER, 160 cm**
- 72 85 04 WINCUT PNEUMATIC CUTER, 246 cm**
- 72 85 03 WINCUT PNEUMATIC CUTER, 305 cm**

The Wincut is a pneumatic wall mounted cutter designed to cut specifically **semi-rigid materials and also glass up to 305 cm**. The movement of the cutting head is done through a pneumatic cylinder that guarantees a fast and smooth cut. The unit is also equipped with a pneumatic clamping system to strongly hold the material that needs to be cut.

The Wincut comes standard equipped with two interchangeable cutting heads, one to **cut semi-rigid materials up to 20 mm** using a special knife and a second one to **cut glass up to 3 mm using a cutting wheel**.

The Wincut is available in three different cutting sizes: 160 cm (63"), 246 cm (96") & 305 cm (120").

## Why is it different?

### INTERCHANGEABLE CUTTING HEAD SYSTEM

Interchangeable cutting head system that allows a quick change of the cutting head.

### DIFFERENT CUTTING HEADS AVAILABLE

Two different cutting heads available to cut semi-rigid materials and glass.

### EASY TO OPERATE

Pneumatic switch to quickly and easily activate the pneumatic knife.

### PNEUMATIC CLAMPING SYSTEM

Useful system to hold the material and with the possibility of regulating the pressure if it's required.

## Other features

- Equipped with nylon rollers on the base to easily move and handle large materials.
- Two measurement stops to accurately set up the desired measure to get.
- Easy to set up and square through the adjusting screw system.
- Laser system available as an accessory, useful to indicate the cutting line.

## Technical Information
